From Louisville. LOUISVILLE, July 22 .- John W. Tompkins, formerly a clerk of the Board of Aldermen, and recently a violent secessionist and recruiting officer for the Southern Confederacy, was shot dead this afternoon by Henry Green, city watchman. Tompkins was hallooing for Jeff. Davis, and was requested to desist by Green, when he drew a knife, but was retreating when Green shot him. The coroner's verdict just rendered says that Green shot Tompkins without sufficient cause. The market this week is about the same as that report ed last as to prices. The stock offered was of inferior quality as compared with the offerings of last week, and the butchers were rather more eager to obtain the best cattle early; but few buyers were willing to pay over \$8 per cwt., and most of the cattle were sold at \$7@8. The good stock was sold mostly on Tuesday, and we think that, of the three days upon which the cattle are offered, Tuesday is the most favorable for business-of which drovers may do well to take note. Nearly half the stock offered this week is from lilitoris. INDIANAPOLIS, INDIANA, THA THE FIRST OF SEPTEMBER, 1861, AT LITTLE'S HOTEL. Where he will be happy to meet all those afflicted withay kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly dustred to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cared, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lungs subject. He has cared hundreds upon hundreds of such patients, who had been

ven up by other practitioners to die. The slea that consumption is necessarily fatal has destroyed more human life than the disease Paelf. Por all forms of Dyspepsia and Kidney laseases he tests the urine, for the excesses deposited, which is the only ossible plan to ascertain the true cause of disease. The Dr. can show more certificates of cores, sworn to by patients, than any other physician it. America. Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and its rue cause. He has no pulled nostrums that will cure all diseases.

The diseases of Women and Children receive his particular attention.

To Males and Females of Youth and Maturity. Seminal Weakness and Spermatorrhora. It is a melancholy fact that thousands who are suffering under pale and inatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease in-sidiously creeping on, every faculty is shattered, constitution wrecked, and they become subject only for a hospital or mad house, unless death comes in as a welcome guest the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical treatment. The earlier this is sought the easier the cure. Generally the first symptoms in males, are noctural and sometimes diurnal emissions. In either sex we find weakness of the stemach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and hectic fever. This disagreeable and awful complaint, with

all its symptoms, can be relieved and promptly arrested by the Indian iderb Doctor and his new method of cure. He uses an astronoment that will arrest the disease instantly, and without any exposure to the patient.

All those who call may depend upon an bonest, candid and true statement of their case, and the possibility of his giving them relief—gratis. This giving them relief—gratis.

. The Doctor permanently cures the Piles, and defies the world to compete with him on Female Complaints.

The Dr. challenges the whole Medical Faculty for the treatment of Lung, Liver, Kidney Diseases and Dyspepsia.
